

WEED TWISTER™

Using the Weed Twister™ is easy as 1-2-3.

1. Point the coil towards the center of the root. For low profile weeds, such as dandelions, place coil directly atop plant.

2. Twist the coil into the soil. Apply pressure as needed, based on soil condition. Moisten soil if dry.

3. Lift the Weed Twister™ when roots are loosened. Several weeds may be collected before discarding.

"The wonder tool for weeds!"

- Take the work out of weeding
- No need to pound or dig the soil - just twist
- No need to stoop down to pick up weeds
- No strain on your back and knees
- Easy reach into narrow corners or beneath shrubs
- Even deep roots cannot escape the Weed Twister™
- Lawns love the gentle action of the coiled tines
- Built to last with no moving parts
- Satisfaction guaranteed

The WEED TWISTER™ may not be the only weeder you'll use in your garden, but we believe it will soon become your *favorite* weeder, because of its simple and efficient design. When you just don't feel like stooping down, or when the target is in the middle of a flower bed or lawn, the WEED TWISTER™ will automatically be your ready weapon against the green invaders.

If you have a problem with *crab grass* or other weeds with networked roots, you'll soon discover that nothing gets at those roots *better* than the WEED TWISTER™! Once you've tried it on your most stubborn green enemies, you'll understand why we call it *the Wonder Tool for Weeds™*.

And, of course the WEED TWISTER™ is *ergonomically* safe when compared against chemical alternatives. *Naturally, it's from Ergonica™.*

WEED TWISTER™ Guarantee:

If, for any reason, you are not satisfied with the WEED TWISTER™, you may return it to the manufacturer within 30 days of purchase for a full refund of the purchase price as verified by the original receipt. No other warranty or assurance is implied or expressed.
